

MISSISSIPPI STATE DEPARTMENT OF HEALTH

Mississippi Statewide Naloxone Standing Order

Authority

Naloxone is indicated for the reversal of opioid overdose induced by natural or synthetic opioids in the setting of respiratory depression or unresponsiveness. It is contraindicated in patients known to be hypersensitive to naloxone hydrochloride.

§ 41-29-319 of the Mississippi Code of 1972 Annotated allows a practitioner acting in good faith and in compliance with the standard of care applicable to that practitioner to directly or by standing order prescribe an opioid antagonist to a person at risk of experiencing an opioid-related overdose or to a registered pain management clinic, family member, friend or other person in a position to assist such person at risk of experiencing an opioid-related overdose; further, a practitioner acting in good faith and in compliance with the standard of care applicable to that practitioner may issue a standing order to one or more individual pharmacies that authorizes the pharmacy to dispense an opioid antagonist to a person at risk of experiencing an opioid-related overdose or to a family member, friend or other person in a position to assist such person at risk of experiencing an opioid-related overdose, without the person to whom the opioid antagonist is dispensed needing to have an individual prescription; and a pharmacist acting in good faith and in compliance with the standard of care applicable to pharmacists may dispense an opioid antagonist under a prescription or a standing order issued in accordance with the law. This standing order by the Mississippi State Health Officer covers the dispensing and administration of naloxone by a pharmacist licensed to practice in the state of Mississippi as authorized under § 41-29-319 of the Mississippi Code of 1972 Annotated (“The Pharmacist”). Dispensing and/or administration shall be in full compliance with Mississippi Pharmacy Practice Regulations.

The pharmacist is authorized to dispense naloxone in accordance with § 41-29-319 of the Mississippi Code of 1972 Annotated.

Order to dispense:

The pharmacist is authorized to dispense the below formulations of naloxone:

Formulation (Generic or Brand Name acceptable)	Directions for Use	Quantity to Dispense	Refills
